

SPRING CYPRESS
ASSISTED LIVING AND MEMORY CARE

WEEKLY RESIDENT SPOTLIGHT

Hello, my name is Cynthia Maker. However, I go by Cindy! I have lived here for one year this month. This was a really nice place to live until the virus changed our world. We do however have to thank our Lord for keeping all of us safe. I was raised as a Navy brat for 16 years. After that, my Dad worked for the government. So, you can imagine, I went to many different schools. I have two children, 1 boy and 1 girl. I am very close to my children. I talk with them every day. I have 2 grandsons and 2 granddaughters. I also have 2 great grandchildren. One of each! I sure miss them not being able to come see me. I love dogs. I had 2 shiatsus when I moved in. I had one male for 16 years and a female for 15 years. I was unable to care for them and had to give them up. I understand we just had a shiatsu move in here. I sure wish I could hold it. I do not come out of my apartment much or get out of bed often. However, I look forward to seeing the new puppy. I pray I get better so I can come and meet some of you. I understand there are have been several new residents move in since I have been here. I have been married three times. Not a very good track record, but of course its not my fault. I guess everyone says that. Anyway, I am single now! I have had many hobbies in my life. My favorite is crafting, you name it and most likely I have done it! After I got older, I joined the Red Hats society. I am in a very active chapter. We went on a cruise to Alaska, we party, try different restaurants, etc. I really enjoy it. I was even "Vice Queen" once. Oh, one more thing. If you find yourself with a lot of presents to wrap... I am your girl! I love to wrap gifts! Well I won't bore you any longer. Take care and wear your mask when outside of your apartment! God Bless you all,

Cindy!
